Meggitt Sensing Systems Hires Accounts Manager For India

Meggitt

Germantown, MD – Meggitt, manufacturer of industry-leading accelerometers and vibration sensing products, announced today that Bivin Mathew has accepted the position of India Accounts Manager for Meggitt (Maryland), Inc. Working from Meggitt's Bangalore facility, Mr. Mathew will focus on strengthening existing customer relationships and developing new business in India, a large and increasingly important market for the company's Wilcoxon Research product lines.

In his role as India Accounts Manager, Mr. Mathew's primary responsibility will be creating and maintaining customer relationships and providing product support to industry users. The addition of the accounts manager role is in direct response to a surging boost in demand for solutions for industrial condition monitoring and predictive maintenance requirements in India's burgeoning industrial and energy sectors. Meggitt offers a wide range of Wilcoxon sensors essential to vibration monitoring programs that help save money, reduce downtime and improve safety in plants worldwide, and strives to offer customers the latest technologies and highest quality products. The continued investment in India as well as increased support and resources available will better serve longstanding customers and support rapidly growing industries.

"Power generation, pulp and paper, steelmaking, petrochemical, and manufacturing sectors are growing quickly in the Indian sub-continent," said Tom Smith, Vice President of Sales and Marketing for Wilcoxon Research products. "We expect continued strong growth rates in India over the next few years due to demanding export levels and the addition of many new manufacturing facilities, and want to have dedicated resources to provide better support to our valued Indian customers on a localized level. With Bivin's help, we are in a better position to do that."

Bivin Mathew holds a Bachelor of Engineering in Electronics and Communication from Anna University of Chennai. With two years industrial sales experience with Meggitt India and a technical background, he is ready to contribute to Meggitt's growth plan for India, the second most populous country in the world.

Meggitt offers employees a diverse, dynamic, and fast-paced environment with a wide array of opportunities for career development and advancement.
