## No More Butts

The Elite Smoker Cease-Fire is a next level ash tray designed to keep facilities free of cigarette butt litter. It also uses a double-drip edge to keep tar build-up on the inside, and a removable steel pail to gather the butts. Justrite Manufacturing built the receptacle from fire-resistant polyethylene, which was fire tested and approved by FM Global. Also featured on the Cease-Fire is a snuffer screen that, according to Justrite, reduces the number of “misses”, and a self-aligning lid for easy access.
