Toolholder Cart Promotes 5S

Huot's new ToolScoot Tree is the latest addition to their lineup of CNC toolholder carts, designed to transport a variety of V-flange and HSK CNC-toolholders. Securing the necessary spanner wrenches, toolholders, collets and cutting tools in one central location makes the ToolScoot Tree ideal for 5S applications. Optional granite or butcher block shelves are available for precision measuring instruments and vise mounting.
