Shockingly Flexible

caption

AutomationDirect (Cumming, GA) adds to its line of electrical wire with flexible service cord, available in sizes ranging from 18 to 10 gauge, for use in industrial applications. The new wire comes in two-, three-, or four-conductor configurations. The SE00W-type cord has a 600 V rating, while the SJEOOW-type has a 300 V rating, and both are available in 50 and 250 foot lengths. A four-conductor, 8 AWG type W cord has a 2,000 V rating, and is available in lengths from 10 to 250 feet. All the flexible cord types are UL and CSA approved, and RoHS compliant.
