

## MISUMI Introduces 2011 Metric Components Catalog

[MISUMI USA](#) [1], Inc., a subsidiary of MISUMI Corporation, part of [MISUMI Group, Inc.](#) [2], announced today it will immediately begin accepting online orders for the latest edition of its metric catalog. The 2011 MISUMI Metric Catalog of mechanical components for machine building and assembly automation features:

- Over 690 new pages,
- More than 1,600 new products,
- 12 new and expanded product sections, and
- Over 10,000 products added to local stock for faster shipping and delivery.

A sampling of new products in the 2011 Metric Catalog includes: Reverse Parallel Motor (Motor Wrap) now available on the LX Series of Linear Actuators, Air Control Linear Guide Module, NAAMS Style Locating Pins and Holders, Flanged Bullet Nose Pins, On-Off Switchable Magnet Blocks with Three-Sided Attraction, Adjustable Height Floor Stoppers, five new styles of Factory Frame Joints, Gates PowerGrip GT Series of Timing Pulleys and Belts, and five new styles of Miniature Conveyors, including Built-in Drive types.

In addition to offering the convenience of being able to configure unique components and have them manufactured in 3 to 6 days, MISUMI has added 10,000 of the most popular configurations to its local stock. The in-stock components are
