

MISUMI Adds Over 8,700 In-Stock Components

[MISUMI USA](#) [1], Inc., a subsidiary of MISUMI Corporation, part of [MISUMI Group, Inc](#) [2]., has announced the addition of a significant number of frequently ordered components to its distribution center in Elk Grove Village, IL, near Chicago. As the result of increasing demand for certain sizes and styles of many popular MISUMI mechanical and factory automation components, more than 8,700 items have been added to the local stock, effective immediately.

A sampling of the items added to stock are: Collars, Washers, Pipes, Valves, Seals, Oil-free Bushings, Tubes, Shaft Collars, Manifold Blocks, Idler Pulleys, Rollers, Cam Followers, Timing Belts, Bearings, Bushings for Locating Pins, Single Axis Actuators, Locating Stages, Accessories for Aluminum Frames, Linear Guides, X-Axis Adjustment Units, Robot Actuators, Angle Plates, and more. These products are purchased by machine builders, designers, and assemblers of factory automation and motion control systems, as well as plant managers and engineers responsible for maintaining and repairing plant floor equipment.

The effect of MISUMI's local stock increase is that a total of over 30,000 parts, which used to ship in 3 to 8 days, will now ship in one day with no increase in shipping charges. As always, MISUMI has no minimum order requirement, so this improved delivery schedule can impact the purchase of even a single component.

These reduced lead times will be reflected immediately on company's unique and easy-to-use Web Ordering System.

MISUMI carries over one million components in its catalog and is the industry leader in providing precise configurable components, one of its key success strategies in serving the machine building and factory automation markets worldwide.

With no minimum order requirements or set-up charges on a product portfolio of more than 1,000,000 metric and inch mechanical components, MISUMI has built its reputation as the premier global supplier of high quality factory automation components. At the heart of the MISUMI business model is the unique CAD Configurator and convenient Web Ordering System. Exclusive to MISUMI, this business model offers customers an effective strategy for reducing costs and gaining competitive advantage through streamlined production and assembly processes and faster time-to-market.

About [MISUMI USA](#) [4], Inc.

Located in Schaumburg, Illinois, MISUMI USA, Inc. was established in 1988 as a Subsidiary of MISUMI Corporation, a part of the [MISUMI Group](#) [5] ([TOKYO: 9962](#))

MISUMI Adds Over 8,700 In-Stock Components

Published on Industrial Maintenance & Plant Operation (<http://www.impomag.com>)

[6]). MISUMI USA, Inc. is a supplier of fixed and configurable components such as leader pins, single-axis actuators, linear shafts, slotted keys, aluminum extrusions, parting locks, linear guides, XY stages and other components for factory automation, plastic mold and press die industries.
