

Dorner President & CEO Dies In Accident On Sept. 8

Dorner

HARTLAND, Wis., (September 10, 2012) — Dorner Mfg. Corp. President and CEO Richard “Rich” Ryan died in a motorcycle accident Saturday, Sept. 8, while traveling in the western United States.

Rich, 59, began his career with Dorner in October 2005, when he was hired as its COO. He held that position until this past June, when he was appointed President and CEO following the company’s acquisition by Pittsburgh-based Incline Equity Partners. Under Rich’s leadership the company more than doubled in size and is known in the industry as the leader in unit handling conveyors. Prior to joining Dorner, Rich held several executive management positions at Rockwell Automation in Milwaukee.

He is survived by his wife Denise and his two sons, Timothy and Colin. This is an extremely difficult and trying time. Our thoughts and prayers go out to the Ryan family.

About Dorner

Hartland, Wisconsin-based Dorner Manufacturing is a world leader in the design, manufacture and distribution of high-quality conveyors and related equipment. Since 1973, companies from around the world have turned to Dorner conveyors for greatly improved efficiency and productivity. For more information about products
