Photo Of The Day: Texas Plant Fire

The Associated Press

Fire and smoke rise as Dallas and Garland fire crews pour water onto storage tanks near where a chemical fire burns off at the Nexeo Solutions plant in Garland, Texas, on Friday, Nov. 16, 2012. Fire Capt. Merrill Balanciere says it's still unclear what caused the fire, but the flames were fueled by highly flammable toluene and methanol. All 41 workers who were at the plant at the time of the fire are safe. (AP Photo/The Dallas Morning News, Tom Fox)
