

Safety Shower

Bradley

Armed with an insulated fiberglass structure, fire ratings, and reliable chemical and corrosion resistance, **Bradley's** (Menomonee Falls, WI) enclosed safety shower provides superior washdown capability in emergency situations, while withstanding harsh chemicals and frigid weather conditions as it resists freezing up to minus 58 degrees Fahrenheit, says the company. The enclosed safety shower comes equipped with 100 percent vacuum-formed fiberglass surround construction that is highly resistant to chemicals and corrosion. The exterior features UV inhibitor gel-coat for extra protection from ultraviolet rays, chemicals, and salt-laden conditions.
