

## Field Supervisor App

Bentley Systems, Incorporated

**Bentley Systems, Incorporated** (Exton, PA) has announced the immediate availability of Field Supervisor. This new, industrial-strength Bentley App for the iPad extends the reach of information securely managed by Bentley's ProjectWise and eB, as well as data stored in other user repositories, to workers in the field – providing both online and offline access. As a result, field workers are now uniquely empowered to quickly and confidently make on-site decisions based on a unified view of relevant, current, and complete project information. Faster, better-informed decision making enhances productivity and project quality, increases compliance with safety standards, and reduces risk. In addition, Field Supervisor's simple user interface minimizes user distraction when accessing information, enhancing worker safety, says the company.
