

RW6072 Parts Washer

Viking Blast & Wash Systems

Viking Blast & Wash

Systems (Rose Hill, KS) has announced the release of the newly redesigned RW6072 parts washer in our industrial line of batch washers, enhanced with upgrades to improve washing efficiency, says the company. The new RW6072 features a 20 HP pump curve reservoir mounted vertical centrifugal pumps, giving approximately 200 gallon per minute pump capacity at approximately 65 pounds per square inch pressure. The pump has no bearings, seals, or gaskets to replace. The rotating workbasket measures 60 inches diameter and has a work clearing height of 72 inches. This unit is equipped with an industrial, natural gas burner with electronic ignition; electronic flame sensor, fresh air blower motor, and adjustable air intake
