

Emergency Stop Safety Edges

Tapeswitch Corporation

Tapeswitch Corporation (Farmingdale, NY) manufactures safety edges for emergency stops in various standard TS models in different profiles: (low TS-6, 8, 16, 18), medium (TS-26, 26, 48), and high (TS-47, 57, 67), front and side actuations (TS-26, TS-46, TS-48), curved or formed (Flexion), actuation forces, and colors. The switching elements offer millions of actuations at any point for reliability, durability, and long product life cycle, says the company. In addition to standard models, Tapeswitch custom manufactures to length, color, and lead type and multiple edge assemblies. Users can incorporate the new PCU/1 programmable and modular control unit and add logic control functions, fieldbus capability, and software to safety edge systems. Also available is the PCU Engineering starter kit.
