Dorner's 3200 Precision Move Conveyor Platform

Dorner Manufacturing Corp.

HARTLAND, Wis. — Dorner's 3200

Precision Move low profile belt conveyor platform has received the Ultraclean Products Approval Laboratory certification for use in ISO Standard 14644-1 Class 5, and Federal Standard 209 Class 100 rated cleanrooms. This means that 3200 Precision Move conveyors will not contribute to the contamination of cleanrooms conforming to those standards. Industries that regularly use cleanrooms in their manufacturing processes include aerospace, pharmaceuticals, medical and healthcare. The 3200 Precision Move is ideally suited to operate in cleanroom environments requiring automation with accurate movement over distance and time. The offering has the latest advancements in timing belting and drive technology.
