

Environmentally-Conscious Cleaning

Environmentally-Conscious Cleaning

Published on Industrial Maintenance & Plant Operation (<http://www.impomag.com>)

LPS Laboratories (Tucker, GA) introduces the G-49 Orange Degreaser with a low volatile organic compound (VOC) content. G-49 conforms to the VOC regulations of CARB, OTC and LADCO. G-49 is ideal for cleaning equipment, whether it is afflicted with grease, grime, or oil, and is an excellent alternative to methyl ethyl ketone. In addition, the product is not a hazardous air pollutant and contains no ozone-depleting chemicals.

For additional information on G-49 Orange Degreaser Low VOCs, visit www.lpslabs.com [1].
