

A Smooth Flow

Moyno, Inc. (Springfield, OH) offers the Moyno Metering Pump with a new, integral VFD/motor controls. A progressive cavity design results in a smooth flow, free from pulsations and variations in velocity or volume, to prevent material waste. Other features include:

- Capacities from 0.1 to 400 gph.
- Multiple external LED displays to monitor pump performance.
- A new stainless steel construction for better corrosion protection.
- Availability in bare-shaft or close-coupled configurations.
- The ability to handle a wide variety of fluids, from clear to corrosive, solids in suspension, or viscous materials.
