

Go Ahead And Weep

La-Man (Port Orange, FL) has developed a series of Extractor/Dryers that are designed as a point-of-use filter to efficiently remove moisture and contaminants from compressed air systems. The Extractor/Dryer is a two-stage filter designed to operate most effectively within twenty-five feet of the point of use. With flow ranges of 15 SCFM to 2000 SCFM and pressure ratings of up to 250 PSI, the series is ideal of air-powered tools, surface preparation, pain spraying, and pneumatic-powered
