

## Lifting In Tight Spaces

The Tite-Space BST AGV Tugger from **Creform Corporation** (Greer, SC) is well suited for delivering to line-side assembly points when space is at a premium. With a minimum turning radius of 400mm, the Tite-Space slips easily into tight spots. Additional features include:

- A low-profile, sleek design with drive motor, 24 Volt DC power supply, and guidance sensors.
- Travel along installed magnetic tape at speeds of 4-50 meters/min.
- A maximum towed weight of 1,320 lbs depending on floor conditions and caster selection.
- Electromagnetic braking, audible and flashing warning lights, and obstacle sensors for safety.
