

SuperStar Of Filters

The SuperStar .01 Micro Filters from **LA-MAN Corporation** (Port Orange, FL) are designed to be installed at the point of use to remove moisture and contaminants from air lines to improve the life cycle of tools and equipment. The four-stage design operates most efficiently within 25 feet of the point of use, and has a flow range of 50, 75, or 100 SCFM with pressure ratings of 250 psi. In addition, the SuperStar filters include built-in differential pressure gauges, which provide a visual indication of required maintenance.
