

# The UPS With Smarts

**Tripp Lite** (Chicago, IL) has a new high-wattage 2200VA SmartPro UPS system, which protects mission-critical equipment. The system provides 2200VA/1920W capacity for loads in just 2U of rack space and offers high-efficiency operation. Additional features include:

- Eight outlets with three separately breakered, individually-controllable load banks to support remote reboot or automated load shedding.
- Line-interactive automatic voltage regulation, which corrects brownouts and overvoltages without switching to battery power.
- USB and DB9 communication ports standard, with optional SNMP Web card.
