

Upgrade Your ERP Solution

Deacom, Inc. (Wayne, PA) has released a new version of the DEACOM ERP Software System, which incorporates design changes to the main menu and enhancements to specific functionality. The new menu contains all the functional areas that are managed in the single system, such as purchasing, sales, inventory control, and production. In addition, the latest version incorporates enhancements in a variety of areas, including physical inventory, scanners, material requirements planning (MRP), financial statements, and dashboard reports.
