

Get A Handle On Stress

Altech (Flemington, NJ) offers the ATEX polyamide strain reliefs for cable entries to provide increased safety in explosion-endangered areas by eliminating any potential for arcs, sparks, or hot surfaces. The IP68-rated strain reliefs offer neoprene seals and promote optimized sealing and protection against contaminants. Additional features include:

- Availability with NPT threats (3/8" to 1") or metric threats (M12 to M63).
- Trapezoidal threads with a high torque for a tight and permanent fit of the dome nut.
- Easy mounting with a flat seal and metal locknut.
- The capability to perform over a broad temperature ranges (-20 to 60°C and -4 to 140°F).

Head on over to www.altechcorp.com [1] to find more information on the reliefs.
