

## Get Vertical For Space Saving

**Stanley Vidmar** (Allentown, PA) has relaunched its vertical lift product, now called the Vidmar Vertical. The automated storage and retrieval system that can manage up to 132,000 lbs of material from the convenience of one computer console. According to the company, use of vertical space is a simple way to save up to 75 percent of a facility's floor space. In addition, the Vidmar Vertical features quick order picking and less waiting, and is ergonomically designed to help limit overreach while lifting.
