

Pick Wisely

TRI-TRONICS, Inc. (Tampa, FL) has introduced the SMART EYE ColorWise Sensor that solves most difficult color applications at higher speeds than color cameras or other sensors. The ColorWise is ideal for intricate color sorting or inspection problems, such as high-speed packaging and production lines. The 4-channel monitor provides users with a continual visual confirmation of performance. Other features include:

- Selectable outputs, timers, resolution, speed to fit any application.
- The ability to solve difficult shade-to-shade or color-to-color applications.
- User-selectable speed versus resolution.
- The capability to capture color from HMIs, PLCs, or remote buttons.

Visit www.ttco.com [1] if you would like to learn more about the ColorWise Sensor.
