

Pressure-Sensitive Labels Go Anywhere

Tyco Electronics (Harrisburg, PA) introduces the new EET G4 woven nylon, Pressure-Sensitive Adhesive (PSA) acrylic labels for thermal transfer printers. The labels are suitable for wire, harness, and cable identification labeling as well as applications with irregular contours. They are available in multiple sizes to fit a wide range of dimensions, and can be applied in a “flag” or “wrap-around” format. In addition, the labels easily conform to the flexible nature of flat-ribbon cables without causing peeling or delamination.
