

All The Bubble Wrap You Want

The NewAir I.B. Express system from **Sealed Air** (Saddle Brook, NJ) is the newest inflatable cushioning system that quickly creates Barrier Bubble material for cushioning, or blocking and bracing applications. The I.B. Express allows operators to make cushions with widths of 12" and 24", plus the availability of options for film strength. Other features include:

- Elimination of the need to store bulky cushioning materials on the plant floor.
- A compact size, which allows operators to create cushions at workstations or for batching processes.
- Compatibility with the Instasheet high-speed converting system and the Jet Stream delivery system.
