

Flipping The Switch On Safety

Pilz (Canton, MI) offers safe, economical safety gate and position monitoring with the PSENmag, which provide non-contact safety switches on the input side and evaluation devices on the output side. The PSENmag switches have a compact design and rugged housing, ensuring a long product service life. Magnetic safety switches are used wherever the risk analysis specifies a high category (EN 954-1), where strict hygiene regulations need to be met.
