

Suction Cups Of All Kinds

Misumi USA, Inc. (Schaumburg, IL) has expanded its family of Suction Cups, which are suitable for use in a host of automated processes within industrial environments, including assembly, conveying, testing, and inspection. The Suction Cups have fittings made of brass with Electroless nickel plating. In addition, the suction cup pad material options include: nitrile rubber, conductive silicon rubber, fluoro rubber, and chloroprene rubber. The various cup types include: the standard for flat pieces, a deep cup for round objects, a sponge type for irregular surfaces, and a soft type for flexibility.
