## Get A Bag Of Chips

The 110 Gallon Chip Trapper from **EXAIR** (Cincinnati, OH) offers a fast, easy way to clean large coolant sumps, according to the company. The Chip Trapper removes solids — such as chips, swarf, and shavings — out of used coolants and other liquids, and is ideal for use on machines with parts washers, tanks, and storage containers. There are no motors or impellers to clog or wear out, and safe operation is assured with a built-in pressure/vacuum relief and automatic safety shutoff to prevent spills or overfilling.
