

High-Powered Pocket Flashlight

The Pocket LED Light Stick (PCLED6) from **E-Z Red** uses a high-powered, wide-angle LED to cover an area about ten times the size of conventional flashlights, according to the company. A pocket clip is molded into the light for easy access. The rugged construction is made to last, and is also water-resistant. 3 AAA batteries are included to provide 8 to 10 hours of LED on-time.
