

Smarter Air Control

The B-PAC series of Baghouse Performance Analyzers & Controllers from **FilterSense** meet EPA or OSHA compliance with powder processing, air pollution control, and dust collection. The controllers integrate control, sensing, and high-speed digital signal analysis to provide time-saving diagnostics. The controller also provides intelligent filter cleaning, which extends filter life. Other features include:

- The ability to detect/locate filter leaks weeks before emissions are visible.
- The capability to instantly locate ruptured or frozen pulse-jet diaphragms.
