

## Build Your Own Signs

The Mobile In-House Sign Shop (MIHSS) is now available from **Visual Workplace, Inc.** (Byron Center, MI), giving users the ability to quickly create their own signs, banners, and other visuals either from scratch or with existing templates without the wait of purchasing from an outside vendor. According to the company, users can save up to 75 percent, and the system pays for itself within the first 50 to 75 visuals. It comes with everything needed to get started, including a 5S crash cart, vinyl cutting plotter, sign-making tools and supplies, click-and-drag software, and more. The base system comes with enough supplies to create up to 50 signs and visuals.
