

Emergency Lighting For Any Plant

Chloride Systems (Burgaw, NC) offers advanced technologies in emergency lighting with the CMF/TMF/ZMF Series, which provides a fixture that is versatile enough to meet egress code requirements in industrial applications. The series is available in 6, 12, or 24 volt, 25-450 watt units with high-performance MR16 lamp head assembly options. Other features include:

- A 120/227 dual voltage input with surge protection and Intelli-Charge for self-diagnostics to increase reliability.
- A maintenance-free, sealed lead calcium or nickel cadmium battery that surpasses the need for 90 minutes of emergency floor.
- The ability to mount the CMF/TMF/ZMF Series on a wall, column, pole, or I-beam.
