

Lock Equipment Into Place

The **Revvo Caster Company, Inc.** (West Seneca, NY) has announced its upgraded Flexello TLCH Series floor locks, designed to provide a means of instantly securing a truck or other mobile equipment without raising it. The new TLCH features a longer and wider engagement pedal so the unit is safer and easier to lock into position. According to the company, the thicker rubber mounting pad is now attached to the unit with a heavy-duty threaded bolt for added strength. The top plate measures 6" x 4-1/2" overall, while the overall height with the pad extended reaches 8-1/8".
