

Wire Rope Isolators In All Sizes

A new series of 70 wire rope isolators from **Advanced Antivibration Components** (AAC — New Hyde Park, NY) feature multiaxial shock and vibration protection, corrosion-resistance, and maintenance-free operation. The cable itself is made from stainless steel in a variety of sizes (1/16", 3/32", 1/8", 5/32", 3/16", 1/4", 3/8", 1/2", 5/8", and 7/8" diameter), and the mounting plates are made of aluminum. According to the company, these cables can be used in a wide range of applications, including electronic racks, rotating equipment (pumps, generators, and compressors), and transport.
