

## A Better Boom Lift

**JLG Industries, Inc.** (McConnellsburg, PA) has announced that it is re-launching its vertical mast lift, the T26E. The mast boom lift features a vertical telescopic mast with a jib that enables operators to reach above and around obstacles. The lift is ideal for plant maintenance applications, heating, HVAC, and workers in automotive plants, according to the company. With an enhanced direct electric drive, the T26E boasts a longer battery life with more duty cycles to increase productivity. The system has a width of 39" and a height of 26", making it compact enough to access hard-to-reach areas. Its platform capacity is 500 pounds.
