

Automate Your Material Handling

The FLA 1650 AGV, from **Amerden, Inc.** (Augustine, FL), provides a flexible material handling link between production lines and warehousing. The vehicle provides automatic pick-up and drop-off of unitized loads, and laser guidance for ease of installation and maximum flexibility within a plant's given layout. Additional features include:

- A special safety feature to stabilize tall loads.
- The ability to control inventory, track production statistics, and interface with the plant host.
- Onboard and offboard software that is open and non-proprietary.
- The ability to obtain a quick ROI with 24/7 operation.
