

Get A Handle On Your Fans

The new touch-screen Fan-Commander control station from **Rite-Hite Fans** (Milwaukee, WI) controls the operation of up to 18 high volume/low speed (HVLS) Revolution Fan or Revolution SP Fan models. With the Fan-Commander, users can optimize year-round performance of the fans. In the winter, the controller changes the fan speed to produce even temperatures from floor to ceiling for energy savings. Features of the Fan-Commander include:

- The ability to control fan speeds and use simultaneously.
- Controls to schedule fans to operate only when needed, to save energy.
- The ability to immediately visualize the settings and status of each fan.
