

Tough Stainless Steel Enclosures

Hammond Manufacturing Company Inc. (Cheektowaga, NY) is now offering its Eclipse Junior (EJ Series) enclosure in 316 grade stainless steel, which offers increased corrosion resistance, making the units suitable for installation in areas with aggressive chemicals. They are designed for use as instrument enclosures, electrical, hydraulic, or pneumatic control housings, electrical junction boxes, or terminal wiring enclosures. They are UP 503 Type 3R, 4, 4X, 12 and 13 and CSA Type 3R, 4, 4X, 12, and 13 approved. They include a formed lip around the door, a continuous foam gasket, and an easy-to-open latching system. They are available from 6" x 4" to 16" x 14".
