

High-Tech Blowers

Kaeser Compressors, Inc. (Fredericksburg, VA) has launched two additions to its Com-paK Plus family of blower packages. The EB 291C and EB 421C models offer side-by-side installation, plus low noise and vibration. They also use the company's tri-lobe blowers, and have an enhance airflow design that improves both efficiency and heat removal. Now, the EB series has advanced control options available, including the Omega Control Basic variable frequency drive and reduced current starting. A variety of sensor and instrument choices make the Com-paK a self-protecting, fully-integrated blower package.
