

## New NITRA Solenoid Valves

**AutomationDirect** (Cumming, GA) has added modular solenoid valves to its NITRA product line. NITRA pneumatic BVS series modular solenoid valves are body ported, three-port, two-position poppet valves available in open or closed configurations. Models are available with removable flying leads or 8 mm micro DIN connectors. Options include 12 VDC, 24 VDC or 120 VAC solenoid coils and models have LED status indicators and feature flow coefficients from 0.02 to 0.05. NITRA pneumatic BVM series modular manifolds for the mounting and wiring of BVS series solenoid valves are also available in four and eight-station models with 35mm or quarter-inch tube inlets.
