

## PROACTOnDemand Software Released

### Reliability Center Inc.

(Hopewell, VA) has released PROACTOnDemand, a software-as-a-service version of its PROACT RCA Software application. PROACTOnDemand is designed to identify an organization's most significant annual losses and then supplies the knowledge and tools to identify all the causes of any undesirable event. The ultimate goal of RCA is to eliminate the recurrence of failures and adverse events and increase productivity, reliability, and safety. Most RCA methods and systems such as MORT, 5Y's, and Fishbone are accommodated by the PROACTOnDemand infrastructure. Available features include customizable reports and teaming features such as permissions and assignments.

To see the PROACTOnDemand demo, visit [www.reliability.com](http://www.reliability.com) [1].
