

## DuraTag Tag Stock And Ribbon

**Graphic Products, Inc.** (Portland, OR) has introduced virtually indestructible DuraTag Tag Stock and Ribbon for the DuraLabel printer. The rugged DuraTag Stock is heat-resistant up to 200 degrees Fahrenheit and is resistant to UV-light, moisture, chemical abrasion, and tearing. Available in 100 foot rolls and in five colors (yellow, red, green, orange, and blue), DuraTag Stock was created for indoor and outdoor tagging applications where both pliability and toughness are critical. It easily attaches to equipment with standard cable ties—punch a hole in the printed tag and attach where needed.
