

## Electric J5A-30P Air Compressor

**Jenny Products, Inc.** (Somerset, PA) now offers the electric-powered J5A-30P air compressor. This single-stage compressor includes an ASME-certified, 30-gallon air tank and is ideal for running multiple tools simultaneously. The J5A-30P is driven by an industrial-duty, five horsepower electric motor, which requires a single-phase, 230 volt power source. It features a four-cylinder “J” pump with a high compression ratio for producing 19.4 CFM at 100 PSI or 19 CFM at 125 PSI. For jobsite portability, the compressor contains pneumatic tires and lifting handles. Other standard features include a manual tank drain, safety relief valve, stainless steel braided discharge hose, and anti-vibration feet.
