

L-shaped Superior Mark Corner

Published on Industrial Maintenance & Plant Operation (<http://www.impomag.com>)

L-shaped Superior Mark Corner

The Superior Mark Corner from **Insite Solutions** (Wake Forest, NC) is an L-shaped floor marker that features a patent pending beveled edge on all side. Using corner markers requires less material and less maintenance than solid lines—if one corner is damaged, it can be individually replaced. The Superior Mark Corner is a durable floor marking solution that features beveled edges, recessed adhesive, and a quick peel liner. These floor markers are scientifically proven to withstand more force than other corner markers and are available in six colors.
