

VOC-TRAQ Volatile Organic Compound Detector

The VOC-TRAQ total volatile organic compound (TVOC) detector from **Baseline Industries** (Lyons, CO) monitors and records PID detectable TVOCs using any PC with a Windows operating system. Designed for ease of use, the USB compatible VOC-TRAQ can operate while connected to a PC, or it can remotely store up to 36,000 sample readings with the detector's internal memory using the optional rechargeable power supply. Alarm levels are programmable with LED and audible notifications. The VOC-TRAQ weighs 1.9 ounces, can operate at temperatures -4 to 104 °F, and readings are accurate to +/-3 percent at constant temperature and pressure.
