

Compact, Lightweight Cylinders

MISUMI USA, Inc. (Schaumburg, IL) has announced new specialty clamp cylinders, rotary clamp cylinders, and air grippers for use in industrial machinery, testing and inspection devices, and factory automation equipment. The new products are compact, lightweight, strong and, versatile.

- Clamp Cylinders, Compressed Air Types are designed with crevices having concave knuckles for firm and secure holding.
- Rotary Clamp Cylinders, Compressed Air Types are square, compact cylinders with a built-in rotary clamping mechanism suitable for clamping small work pieces, such as electronic parts, in limited spaces.
- Compact Air Grippers, Parallel Type, Open/Close Stroke are designed to perform precise work piece handling and pick-and-place functions in a range of automated assembly machines, testing, and inspection devices.
