

Explosion Proof LEDs

Larson Electronics (Kemp, TX) has released the explosion proof Magnalight LED light fixture with UL certification and a Class 1 Division 1 and 2, and Class 2 Division 1 and 2 explosion proof rating. This four foot long, four lamp LED light fixture replaces traditional fluorescent equipped fixtures and provides more light with less power consumption and enhanced durability as well as better contrast and good color rendering. With a corrosion resistant housing constructed of copper free aluminum alloy and four LED lamps enclosed within impact and heat resistant Pyrex tubes, these fixtures are durable and can withstand the rigors of industrial applications.
