

Manufacturing Solutions Suite

The Ubisense Manufacturing Solutions Suite from **Ubisense** (Cambridge, U.K.) provides real-time visibility of production operations to increase throughput, improve quality control, and achieve a smarter workflow. The suite is a comprehensive collection of software applications that leverage location information to precisely pinpoint critical assets moving through complex production environments. The suite includes:

- Asset Manager provides a management portal into an organization, keeping track of critical assets.
- Visible Industrial Process (VIP) extends location visibility into detailed process monitoring.
- Assembly Control System (ACS) extends location visibility into real-time equipment control.
