

Welding End Prep Tool

A new I.D. clamping welding end prep tool that compensates for out of round conditions and can perform complex end preps on highly alloyed pipe up to 36 inch O.D. is being introduced by **ESCO Tool** (Holliston, MA). The Terminator MILLHOG Welding End Prep Tool is designed for use on pipe from 8-5/8 inches I.D. to 36 inches O.D., rigidly clamps to the I.D., and has a tracker to compensate for out of roundness. Capable of producing symmetrical end preps of any angle, this large pipe end prep tool can bevel, face, and bore simultaneously on all types of hard alloys.
