

Continuous Duty Vacuum

VAC-U-MAX (Belleville, NJ) has introduced the updated Model 1020 Continuous Duty Industrial Vacuum. The VAC-U-MAX Model 1020 features a powerful positive displacement pump designed specifically for high volume recovery of up to 5 tons per hour. It is also used in the recovery of heavy materials including steel shot, foundry sand, metal powders, sludges, and other similar materials. It is available in 10 or 15 horsepower and its continuous duty vacuum producer enables it to meet even the toughest challenge.
